Table of Contents

List of Figures and Tables	XIII
Preface.....	XV
Acknowledgements for the French Edition	XVII
List of Abbreviations.....	XIX
Introduction	1
Module 1 Background on Dental Public Health	5
Chapter 1 A History of the Public Health Dental Hygiene Profession in Quebec	7
Contents	8
Introduction	10
1.1 Predecessors of dental hygienists – 1908 to 1934	10
1.1.1 Health units	10
1.1.2 First dental public health statistics	12
1.1.3 Teaching oral care to students: The beginning.....	12
1.2 Rise of prevention and public education about dental health – 1935 to 1966	13
1.2.1 The Dental Hygiene League.....	13
1.2.2 Dental hygiene and the provincial ministry responsible for health	13
1.3 Birth of the dental hygiene profession – 1967 to 1979	16
1.3.1 Reorganization of the public health system in Quebec	16
1.3.2 The Régime d’assurance maladie du Québec (RAMQ – Quebec Health Insurance Board)	17
1.3.3 The mission of dental hygienists in schools	18
1.4 New orientations in public health and the development of the dental hygiene profession – 1980 to 1989	19
1.4.1 Formal integration of hygienists into the CLSCs.....	19
1.4.2 Adaptation to the CLSCs	19
1.4.3 State of dental health between 1977 and 1984	20
1.4.4 Influence of the Brunet Report and the Rochon Commission Report.....	20
1.5 The dental hygiene profession reaches maturity – 1990 to 2010	21
1.5.1 Influence of the <i>Enquête sur la santé dentaire au Québec de 1989–1990</i> (1989–1990 Quebec Dental Health Survey) on the profession	21
1.5.2 Influence of the 1992 Policy on Health and Well-being.....	22
1.5.3 The profession hits its stride.....	23

Chapter 2	The Organization of Public Health in Quebec	29
Contents		30
Introduction		32
2.1	Legislation	32
2.2	Structure of the health system	33
2.2.1	The provincial level	33
2.2.2	The regional level	34
2.2.3	The local level	35
2.3	Québec Public Health Program	35
2.4	Dental Public Health Program	37
2.4.1	Three levels of intervention	37
2.4.1.1	The provincial level	37
2.4.1.2	The regional level	38
2.4.1.3	The local level	39
2.5	Dental public health action plans	40
2.5.1	Objectives of the Plan d'action de santé dentaire publique 2005-2012 (Dental Public Health Action Plan 2005-2012)	41
2.5.2	Target groups of the Plan d'action de santé dentaire publique 2005-2012 (Dental Public Health Action Plan 2005-2012)	41
2.5.2.1	Children aged 4 and under	41
2.5.2.2	Young people aged 5 to 17	42
2.5.3	Activities and intervention areas	42
Chapter 3	Portrait of a Public Health Dental Hygienist	47
Contents		48
Introduction		50
3.1	General scope of activities of the public health hygienist	50
3.2	Skills and competencies of the public health hygienist	50
3.3	Tasks and activities of the public health hygienist	51
3.3.1	Tasks in the field	51
3.3.1.1	Dental caries screening in children at risk	52
3.3.1.2	Individual follow-up visits	53
3.3.1.3	Working conditions in the field	54
3.3.2	Administrative tasks at the CSSS	56
3.3.3	Other dental public health activities	56
3.3.4	Professional development activities	58
3.3.5	Activities related to working conditions and the working environment	58

3.4	Comparison of dental hygienists' tasks in public health versus private clinics	60
3.4.1	Patients	61
3.4.2	Administrative tasks	61
3.4.3	Work locations and working conditions	61
3.4.4	Clinical tasks	62
3.5	Working conditions of the public health hygienist	64
3.5.1	Working conditions defined by the work contract	64
3.5.2	Working conditions associated with the sector	64
3.6	Future prospects for the profession	67
	Exercise at the end of Module 1	71
Module 2 Tasks and Responsibilities		73
Chapter 4 Screening Sessions and Individual Preventive Follow-Up Visits		77
Contents		78
Introduction		80
4.1	Dentition of children	80
4.1.1	Dentition of children in kindergarten	80
4.1.2	Dentition of children in Grade Two	80
4.2	Classification and identification of children at high risk of dental caries	82
4.2.1	Severity grading	82
4.2.1.1	Grade 1 severity	82
4.2.1.2	Grade 2 severity	82
4.2.1.3	Grade 3 severity	83
4.2.1.4	Grade 4 severity	83
4.2.2	Rules for assessing dental caries	86
4.2.2.1	Rule 1	86
4.2.2.2	Rule 2	86
4.2.2.3	Rule 3	86
4.2.3	Classification and selection forms	87
4.3	Obvious need for treatment (<i>besoin évident de traitement</i> , BET) of oral anomalies	88
4.3.1	Obvious need for treatment of dental caries (BETC) or gingivitis	88
4.3.2	Obvious need for treatment (BET) associated with eruption or positioning of teeth	89
4.4	Follow-up visits with children at risk of dental caries	92
4.4.1	Counting tooth surfaces with caries	92
4.4.2	Calculating debris index scores	93
4.4.3	Preventive measures	94

4.4.4	Indices used in epidemiological studies and ministerial decisions	96
4.4.4.1	Dental caries indices	96
	A. Calculating dmft and dmfs index scores	96
	B. Calculating DMFT and DMFS index scores	97
	C. The C1-4MFS and c1-4mfs indices	98
	D. The Significant Caries Index	98
	E. The Index of Fluorosis	99
Chapter 5	The Importance of Epidemiology.....	105
	Contents	106
	Introduction	108
5.1	The role of dental hygienists in epidemiological studies	108
5.2	A brief overview of epidemiology	108
5.3	Important concepts in epidemiological studies	109
5.3.1	Research design	109
5.3.2	Epidemiological study design	110
5.4	Epidemiological dental health surveillance in Quebec.....	112
5.4.1	Studies on the oral health of children in Quebec.....	112
5.4.1.1	Dental health study of 1977–1978	113
5.4.1.2	Dental health study of 1983–1984.....	113
5.4.1.3	Dental health study of 1989–1990.....	113
5.4.1.4	Oral health study of 1996–1997	114
5.4.1.5	Oral health study of 1998–1999	114
5.4.1.6	Étude longitudinale du développement des enfants du Québec (ÉLDEQ 1998–2010) – Volet santé buccodentaire (Longitudinal Study on the Development of Children in Quebec, ÉLDEQ 1998–2010 – Oral Health Component).....	115
5.4.2	Some thought-provoking conclusions	116
5.5	Epidemiological studies as a preventive tool	117
5.5.1	Identifying risk factors.....	117
5.5.2	Developing a predictive model	117
5.5.3	Developing a screening program.....	117
5.5.4	Establishing effective interventions	118
5.6	The impact of epidemiological studies on public health policy.....	118

Chapter 6	Administrative Tasks in Dental Public Health	123
Contents		124
Introduction		126
6.1	Managing files of children vulnerable to caries	126
6.1.1	Obtaining parental consent for individual preventive follow-up	127
6.1.2	Opening a file	129
6.1.3	Legal aspects of file management	129
6.1.3.1	Rights and obligations of the parties in the file	129
6.1.3.2	Maintaining confidentiality in file management	130
6.1.4	Statement of interventions and results	131
6.2	Standardized data entry	133
6.2.1	Definition of a user	136
6.2.2	Definition of an intervention	136
6.2.3	Definition of a specific activity	137
6.3	The annual report	137
Chapter 7	Equipment and Health and Safety Measures	141
Contents		142
Introduction		145
7.1	Dental equipment and supplies used in dental public health	145
7.1.1	Dental supplies for screening	145
7.1.2	Dental supplies for follow-up	145
7.1.3	Portable equipment	147
7.2	Infection prevention and control	150
7.2.1	Risks and preventive measures associated with screening	150
7.2.2	Risks and preventive measures associated with follow-up	151
7.2.2.1	Suction system	152
7.2.2.2	Air/water syringe	152
7.2.2.3	Prophylaxis and contra-angle handpieces	152
7.2.3	Risks and preventive measures associated with group brushing	154
7.3	Biomedical waste	154
7.3.1	Disposal of biomedical waste	155
7.3.2	Accidental exposure	155

Chapter 8	Development and Implementation of Projects	159
Contents		160
Introduction		165
8.1	Components of the model	165
8.1.1	Assessing the target population's needs	166
8.1.2	Planning the project	168
8.1.2.1	Establishing the goal and objectives	168
8.1.2.2	Identifying activities and resources	171
8.1.2.3	Establishing evaluation mechanisms	171
8.1.3	Implementing and evaluating the project	173
Exercise at the end of Module 2		177
Module 3	The Professional Approach	179
Chapter 9	Outreach Activities with Children.....	181
Contents		182
Introduction		185
9.1	Overview of the learning abilities of children aged 0 to 12	185
9.1.1	Children's skills and interests	185
9.1.2	A few important learning concepts.....	188
9.1.2.1	Operant conditioning	188
9.1.2.2	Imitation.....	190
9.1.2.3	Empowerment through awareness	191
9.1.2.4	Sources of motivation	192
9.2	Teaching style and types of activities	193
9.2.1	Characteristics of a suitable instructional approach	193
9.2.1.1	The instructional approach allows children to be physically active	193
9.2.1.2	The instructional approach fosters discussion	194
9.2.1.3	The instructional approach is rooted in familiar concepts	194
9.2.2	Types of intelligence addressed by various learning situations	194
9.2.2.1	Gardner's multiple intelligences	194
9.2.2.2	Catering to multiple intelligences.....	195
9.2.3	Types of activities	198
9.2.4	Creating a positive learning environment.....	199
9.2.4.1	Establishing a rapport with the children.....	199
9.2.4.2	Holding the children's attention.....	199
9.2.4.3	Behaviour management	200
9.2.4.4	Wrapping up the visit	201

9.3	Practical organization of outreach activities	202
9.3.1	Design of educational materials.....	202
9.3.2	Preparing the location.....	202
9.3.3	Choosing and preparing the materials.....	202
9.4	Stages of outreach activities	203
9.4.1	Preparation of outreach activities	203
9.4.1.1	Presentation of a motivational factor	204
9.4.1.2	Putting the activity in context	204
9.4.1.3	The learning activity	204
9.4.1.4	Review of acquired concepts.....	205
9.4.2	Time management throughout the activity.....	206
9.5	Evaluation of outreach activities.....	206
Chapter 10	Approach to and Communication with Children and Their Families and Those Responsible for Them	211
	Contents	212
	Introduction	215
10.1	Ethics	215
10.2	Self-assessment.....	217
10.3	Diversity of Quebec families	218
10.3.1	Composition of Quebec families.....	218
10.3.2	Cultural and language differences.....	219
10.3.3	Poverty	219
10.3.4	Neglect, abuse and violence	220
10.4	Moral dilemmas: Confronting your own values, beliefs and prejudices	221
10.5	Communicating with children and their families	222
10.5.1	Communicating with children.....	222
10.5.2	Communicating with parents and guardians.....	223
	Exercise at the end of Module 3	229

Appendices	233
A. Screening and Classification Form for Children Vulnerable to Caries.....	234
<i>Formulaire de dépistage et de classification des enfants vulnérables à la carie</i>	236
B. Preventive Follow-Up Consent Form.....	238
<i>Consentement au suivi préventif</i>	239
C. Notice of Ongoing Intervention.....	240
<i>Avis d'intervention en cours</i>	241
D. Request to Open a File.....	242
<i>Demande d'ouverture de dossier</i>	243
E. Preventive Dental Follow-Up File (Without Tooth Numbering)	244
<i>Dossier de suivi buccodentaire préventif (sans décompte)</i>	246
F. Information for Parents	248
<i>Information aux parents</i>	249
G. Obvious Need for Treatment (<i>besoin évident de traitement</i> – BET)	
Associated with Eruption or Position of Teeth	250
G.1 Angle's classification method	250
G.1.1 Class I: Normal occlusion or neutroclusion.....	250
G.1.2 Class II: Distocclusion.....	250
G.1.3 Class III: Mesioclusion	252
G.2 Anomalies relating to the eruption or position of teeth	252
G.2.1 Mandibular malposition	252
G.2.2 Horizontal and vertical overlaps	252
G.2.3 Anterior and posterior crossbites.....	254
G.2.4 Dental midline deviation	255
G.2.5 Occlusion on the terminal plane.....	255
G.2.6 Interdental spaces.....	257
G.2.6.1 The primate spaces.....	257
G.2.6.2 The leeway space.....	258
G.2.7 Poor oral habits.....	259
G.2.8 Atypical swallowing.....	259
G.2.9 Mouth breathing.....	259
H. Commonly Used Terms in Epidemiological Studies	261
I. Main Sections of a Scientific Article.....	263
J. Standardized Data Entry Form	264
<i>Formulaire de saisie normalisée de données</i>	265
K. Example of an Outreach Activity: <i>Advice for Mrs. Daisy the Cow, the Dental Puppet</i>	266
 Bibliography.....	 269
 Illustration Credits.....	 279
